

MICRO-HF G3 CRAV

Clip-on transmitter and wireless receiver True Diversity set

- Discreet and ideal on the voice: the clip-on cardioid compact microphone of this set is particularly insensitive to the sounds off-axis. No need to speak very loudly, the voice of the presenter is always perfectly heard.

- A handheld transmitter powered by rechargeable batteries (optional) and a true diversity receiver are guarantees of a signal transmission always reliable, even in large rooms.
- Programmable Mute function
