

- Removable mounting up to 550 mm.
- 19" 3U rack (including EXEONE unit).
- Locking latches / handles.
- For 19" racks from 500 to 900 mm deep.

- The TIROIR-ONE mounting kit allows to install a EXEONE unit in a 19" rack cabinet between 500 and 900 mm deep.
- With only 3U high, including EXEONE installed, it offers a solid fixing base for the equipment and makes it removable to ease the system wiring and maintenance.
- The TIROIR-ONE mounting kit has 2 highstrength steel guides to completely remove the EXEONE unit from the rack without disassembling.
- The kit has locking handles to integrate the EXEONE unit with the rest of the rack cabinet equipment.
