

A 1031-U

Passive omnidirectional antenna for wireless microphones

- Transmitting and receiving antenna for frequencies between 450 and 960 MHz.
- Compatible with transmitter and digital wireless receiver sets : MICRO-HF EW-D MAIN / MICRO-HF EW-D CRAVAT / MICRO-HF EW-D CASQUE.
- Compatible with transmitter and wireless receiver True Diversity sets : MICHF-PRO MAIN / MICHF-PRO CRAV / MICHF-PRO CASQ.
- Compatible with rack receiver : EW-D EM.

Model	A 1031-U
Frequency range	430-960 MHz
Apex angle	360°
Deviation from circular radiation	< 3 dB
Gain	0 dB
Connector	BNC socket, 50Ω
Max. input power	10 W
DC input resistance	≥ 1 MΩ
Temperature range	-20° - +80° C
Max. humidity	95%
Dimensions	10.63 x 5.12 x 1.38 inch 270 x 130 x 35 mm
Weight (with booster)	approx. 5.29 oz / 150 g
Mounting connection	5/8" thread, thread adapter to 3/8"
