

# DPA-150Q / DPA-300Q

## Class-D digital amplifiers - 4x150 / 4x300W - 100V - 24V DC

- The DPA amps are multiple Class-D, 2U digital amps with efficiency better than 90% for less heat dissipation, noise, and weight compared to traditional analog amps.
- The line features 3 models quadruple and eightfold amps from 400 to 1200W.
- They include 2 audio inputs, including one priority input to cut the current program so you can broadcast a priority message by dry contact, for example.
- Front-panel LEDs let you see amp status instantly.
- These amplifiers are fitted with a 24VDC supply terminal block for use on booster batteries.
